

# Design end profile

Parquetvinyl  
by Lamett

PRO-E-2700-SI : Silver  
PRO-E-2700-BL : Black

As a transition to a window, to another type of flooring, along a wall or a kitchen island, this design stop profile is completely integrated into the interior and is hardly visible. Ideal for a tight and harmonious finish of beautiful floors.

The aluminium end profiles fit in perfectly with the floor in terms of aesthetics.

The profile is made of lightweight, wear-resistant aluminium. Top grooved.

Supplied without screws.

## TECHNICAL DETAILS:

material: anodised aluminium  
colours: silver or mat black  
length of the profile: 270 cm  
dimensions: 35 mm x 6 mm
